SnaZio* - TVPVR NB

Get this PC card device to watch and record "live" television on your laptop. It's a full-featured digital video recorder which provides fine-tuning, scheduled recording, time shifting, instant replay, TV wallpaper on desktop and real-time TV and video capture in a choice of formats like WMX, VCD and DVD. You can even store TV programmes and captured video images on VCD and DVD.

Special deal:
\$129 when you trade in any VGA, TV tuner or video capture card.

Astone - Rumba 1000 MP3 player

The sleek and stylish Astone Rumba 1000 Digital Music Drive plays MP3 and WMA files in five equaliser modes. This MP3 player operates on one AAA battery and supports Windows ME/2000/XP. LED backlights the display panel which can support six languages. Other features include a built-in voice recorder and an FM tuner to listen to your favourite radio stations.

Special deal:
Limited stocks selling at \$99 each (with GST).

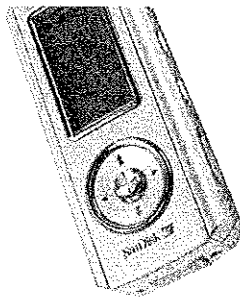

V-Biz - PC/Mac PhoneHome

PC PhoneHome or Mac PhoneHome is a highly tamper-proof computer tracking and theft recovery software. It has an Internet connection and works by sending a stealth e-mail message containing its exact location to a pre-determined e-mail address set by the user each time the computer is booted. This enables you to locate your laptop anywhere in the world, and this information can be given to law enforcers to act upon.

Special deal:
\$39.90 per set.

SanDisk - Digital Audio

Choose your MP3 player from among ranging in storage size from 256MB to single AAA battery, you can get up to continuous playtime for MP3, WMA or files. It also has a digital FM tuner, an Ir recorder with built-in microphone and Indiglo Backlit LCD that displays song title name.

Special deal:
256MB: \$129, 512MB: \$179, 1G: \$249.
